

Medical Management of Cyanide Agent Casualties

Sponsored By
U.S. Army Medical Command

Activity ID
2008-0413

Course Director
Charles G. Hurst, M.D.

Planner
Sharon Key

Activity Date
10/1/2008 - 9/30/2009

Location
Internet Enduring Material
Aberdeen Proving Ground, MD

General Continuing Medical Education Information

Accreditation Statement

The U.S. Army Medical Command is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

Credit Designation

The U.S. Army Medical Command designates this educational activity for a maximum of **0** *AMA PRA Category 1 Credit(s)*TM. Physicians should only claim credit commensurate with the extent of their participation in the activity.

Statement of Need/Gap Analysis

The purpose of this CME activity is to address the identified gap(s):

- * 1) Medical providers must be able to differentiate signs and symptoms of chemical cyanide agents.
- * 2) Medical providers must be able to supervise and delegate resources during the patient decontamination process.
- * 3) Medical providers must be able to identify and appropriately treat patients exposed to chemical cyanide agents based on diagnosis.

Learning Objectives

1. Apply the fundamentals of chemical agent terminology to the diagnosis & treatment of cyanide agent casualties & recommend appropriate treatment, decontamination & detection to reduce illness & injury due to cyanide agent exposure.
2. Apply the fundamentals of mechanism of action to the diagnosis & treatment of cyanide agent casualties & recommend appropriate treatment, decontamination & detection to reduce illness & injury due to cyanide agent exposure.
3. Apply the fundamentals of consideration of patient circumstances to the diagnosis & treatment of cyanide agent casualties & recommend appropriate treatment, decontamination & detection to reduce illness & injury due to cyanide agent exposure.

Intended Audience

The course is designed for Medical Corps and Nurse Corps officers, physician assistants, Medical Service Corps officers in specialties 67B, C, or E, and other selected medical professionals. Lectures, case studies, and interactive modules prepare graduates to effectively manage casualties exposed to chemical cyanide agents.

*** Hardware/Software/System Requirements ***
